

KALINAGO'S TERRITORY

We started our day in Dominica with a traditional English breakfast, including bread and beans. We left around 9 a.m to begin our activities.

After getting ready , we took zip lines to reach our bus, which was a fun and unique experience. Then we headed to the Kalinago Territory, which represents about 3% of the island.

Then , we visited the cultural center Barana Aute, wheree we learned more about Kalinag culture, discovered and explored local plants. We also learned that the president of Dominica is of Kalinago origin and a woman , highlighting the importance of this community in the country.

After that, around 1 p.m we shared a meal with local family, which was a very warm and friendly experience. We took part in activies such as making baskets and coconut cups. We had a lot of fun and shared many laughs.

Finally, we returned to the lodge after a day full of discoveries and cultural exchanges.
